Ir would be a move in the right direction if the Democracy and Libplace Hon. Thomas Ewing, of Fairfield county in nomination for Gov-

Ir any man under the present administration is tempted to become a common petty thief, let him con sider whether it would not be better to exert his talents to obtain Government position and then steal on a gigantic scale. In the latter case he would almost certainly, if detected and convicted, be pardoned by Grant, while in the former he would be beyond the reach of such elemency, and might have to serve out his full term of sentence. Look at Hodge, General Runkle and oth-

THERE is no talk of the adjourn ment of the Legislature. The members stay there at a cost of more than a thousand dollars a day, and the people are compensated for this with a mass of ruinous legislation. Let the cry go up from all quarters of the State for an early adjournment, and a constitutional provision against sessions of more than sixty days duration.

THE State Auditor, in his annual report, informs the tax-payers that a large increase of the State Levy for General Revenue purposes will be necessary for the coming year. Refreshing.

Am'r it about time for those journals which have had so much to say about unrepentant rebels to tell us something concerning the "loil" thieves and bribe takers?

An Ohio statute makes it "the duty of school directors to visit the schools of the sub-district at least twice during each term." Directors are bound by their official obligations to fulfill the requirement of this provision.

BALLOON ASCENSION .- This usu-

ally quiet town enjoyed a sensation yesterday-the like of which has never been witnessed by our citizens. As announced previously, Prof. J. H. Boley, of Allensville, the only balloonist Vinton county has furnished, appeared here on Monday and made the required excavations and arrangements in the Court House yard, between the old coal house and the street, and fixing 5 o'clock p. m. yesterday for leaving for the regions above. At about 3 o'clock, p. m., the citizens began to congregate, and at about 4:40 the word was given, the fastenings cast off, and the monster balloon and the daring aeronaut rose very quickly in the air. When about 100 feet high, he waived with a handkerchief as adieu to the multitude. The balloon shot rapidly upward to about the distance of one-third of a mile high, when a strong current of air carried it in a North-easterly direction but a short distance, when it commenced descending rapidly, and landed safely in the north part of our lot on High street, west of the residence of ELI REYNOLDS. He traveled over twothirds of a mile on this trip. As a balloonist the Professor is a success, but when he makes the next ascension, we hope the weather will be much more favorable.

tained beyond our most sangaine expectations we are prepared with additional facilities for making the ensuing volume respond still more fully to the popular demand for an honest and independent exponent of the Hygienic System. We shall publish— POPULAR PHYSIOLOGY, fully illustrated, a complete explanation of the structures and unctions of the human system. AFFECTIONS OF THE EYE AND EAR, with hundreds of illustrations, embracing the whole range of medical and surgical diseases of these organs.

THE SCIENCE OF HEALTH baving been sus-

ALL MEDICAL SYSTEMS, giving a history of all the medical theories that have prevailed in all ages of the world. DOMESTIC ECONOMY, Household Affairs, Hygienic Cookery, the Selection and Preser-vation of food, etc.

vation of tood, etc.

The Economy of Health. Only those who have investigated the subject can be aware of the enormous waste caused by sickness and unhygienic living. By adopting the Hygienic system, the people of the United States would save annually more than one thousand millions of dollars. Does this statement seem extravagant? Statistics more than justify it, as we shall prove. THE LABOR PROBLEM. — Correct habits of living will ensure the laborer health and strength, comble him to accumulate his earn-ings, and become pecuniarily independent.

HEALTH IS HAPPINESS.—Above all mone-tary considerations, however, is that of a sound mind in a sound body. Health reform is the base of all reform.
